BASKETBALL SUMMARY

At the time of this writing the Washington Bluejays "A" Basketball team have won 12 and lost 3. Included in the 12 wins are two trophies won by the 'jays. Consolation trophy was won at Elsberry and a 1st place trophy was won at Warrenton.

The Bluejays have averaged 46 points per game and held their opponent's to a 38 point average. The three lost have been by close scores, losing to Maplewood of St. Louis 41-38; St. Clair in an overtime 47-44; and to Union 44-42. The Bluejays hold victories over Warrenton twice, New Haven three times, Montgomery City, St. Clair, Fayette, Wentzville, Owensville, Riverview Gardens of St. Louis and Jonesburg.

Most of the "A" Team this year are the "B" team boys of last year with the exception of Virgil Grannemann and a newcomer, Leroy Kibbons. Of the 8 "A" boys of last year only Grannemann is playing with the Bluejays this year. Other boys that make up the "A" Team are Don Miller, Bill Pence, Eddie Ronsick, Tom Fenner, Fred Nix, Merlyn Freie, Wilbert Taetz, Bob Goebel, Vic Koirtyohann and Jim Struebbe.

Six of the above mentioned boys return next year which should form a strong quintet for the local followers.

Senior Prophecy

Minutes of Washington High School faculty meeting: February 19,1971.

At a recent meeting of the Washington High School faculty, the class of 1951 was named as the most outstanding class in the history of the school. The members of this group have accomplished more since they graduated than any other class. The following report was submitted to the faculty by the Alumni Committee:

Russell Vaughan recently published his book, *The Raising of Hogs,* in which he pictures hog raising on his farm near Washington. He owes much of his success to David Nothstine, a well-known scientist, who has been mixing the hog feed.

Betty Briggs was Miss America of 1955. Betty Dyson gained recognition as the "World's fastest typist" soon after she graduated. Verna Brune is a great hit as a singer. Also, in the field of music, Glen Holt was named as Missouri's Number One Music Man. Virginia Thias is an opera singer who wrote words to Gershwin's *Rapsody in Blue,* so that she could sing it and Shirley Perdew is her accompanist.

Angilee McDaniel is a movie star, who recently visited Washington for her birthday. Often one may see on television: Robert Essmueller and Bill Welsh, comedians, and Willard Hoemann, who advertises dog food. LeRoy Kibbons advertises cigarettes.

In the field of sports, Virgil Grannemann is a basketball coach after his brilliant record as a college athlete. Merlyn Freie is a sports commentator, whom we remember for his great football record in college.

Donald Storment has been peering through a microscope for the last twenty years trying to discover new bacteria. Earl Czeschin is representing Missouri in Congress, while Victor Koirtyohann has written a series of articles entitled *The Troubles of Being a Bachelor,* based on his own experience. Soon after his articles were written, he got married and now he and Donald Stumpe are co-authors of a book, *The Woes of Being Wedded.*

Shirley Peters is working for the government as a detective. Opal Morris manages the Diamonds. Joyce Jett became a dancing teacher and now has her own dancing school.

Some of the class are now teachers at Washington High School, which is now a large, beautiful streamline building. Sarah Otto, an architect, designed the building. Patsy Fries teaches biology; Betty Oberhaus teaches senior English; Carl Breeden, typing; Jackie Moore, art; and Gus Lindauer, music. Evelyn Gardner has replaced Mr. Burger as superintendent. (No wonder the class of '51 was chosen the most outstanding!).

Rosella Becker is editor of one of the largest newspapers in the West. Audrey Fricke is a fashion designer, and Janice Ronsick, a model, who has modeled most of Audrey's clothes.

Robert Zimmer is an electrical engineer, and Robert Kase, an optometrist. Jack Hischier writes the script for the Lone Ranger's radio program. James Struebbe is a traveling salesman.

Fay Manning is a short story writer. Nancy McMonigle sells Studebakers in Washingyon. Irene Grannemann and Dolly Meyer are psychologists, while Janet Bailey has become a doctor.

Jack Gehlert heads a large shoe firm. Robert Goebel is an army captain. Shirley Jones has written a book, *Learning Shorthand in Two Easy Lessons.* It is used in all schools now. Dorothy Jones and Lillian Dutton have developed a new and better kind of false teeth. They are manufactured by Doris Epple, whose firm is located in Washington. Jewel Cramer is in the field of foreign service as an ambassador to Africa. Betty Clover is traveling in Europe on her honeymoon; until she got married she was a reporter for the *New York Times.* Marcella Stricker is a beautician and has her own shop in Washington.

Helen Stegen is working as a librarian in Chicago. Vernon Schroeder operates his own little retail business in the heart of downtown Podunk. Joan Schaub is a buyer for a large department store in St. Louis. David Rice is advertising manager of the same store. Ruth Nolting is vice president of a bank in Washington. Shirley Miles is living in Gary Summit after marrying a multimillionaire. May Koirtyohann is living in Texas, where she owns much land. Dorothy Aichholz is known for her art work all over the world. Esther Althage lives west of Washington, where she writes her widely read *Advice to Those in Love.* Charles Buel directs a dramatic school in California and Joe Calvin raises corn in Iowa. Mae Jean Wehmueller keeps house and lulls the little ones to sleep with lullabies on the cello. Hazel Ann Meinershagen is making a fortune gazing into the crystal ball which she has been doing since her high school days.

The report was unanimously approved. Meeting adjourned.
